

Airbrush art

PP-Design & Art is a one man company based in Parkano, Finland, and run by an airbrush artist Perttu Papunen. Perttu is known around Finland and Scandinavia as a skilled painter, especially in the field of ice-hockey goalies's masks, but his area of work includes almost anything paintable - mobile phones, helmets, portraits, motorcycles, cars, signs, murals... you name it ! A common feature to all his works is their high quality as well as their originality for which the main provider is always the customer. The wishes and requirements of the customer form the core of Perttu's work and his goal is to fulfill them to the tiniest detail. Whether you have a sample picture or just an idea, together we will shape it into the painting you want.
